

# ANA2017 CONFERENCE

The 12<sup>th</sup> Australian Nuclear Association Conference on  
Nuclear Science and Engineering in Australia

## *Nuclear Solutions for Australia*

9 am – 5 pm Friday, 6<sup>th</sup> October 2017  
UTS Aerial Function Centre, Level 7, UTS Building 10,  
235 Jones Street, Ultimo 2007

- *South Korean nuclear power industry and APR1400 reactors in UAE*
- *Applications of nuclear techniques and nuclear medicine technologies*
- *Nuclear power options for Australia*

The ANA2017 conference is a great opportunity to learn about new developments in nuclear technology, nuclear power and nuclear applications in Australia and around the world.

Registration is \$280 including morning tea, good lunch and afternoon tea (\$260 early bird before 27 Sept), with a concession of \$120 for students and retired ANA members.

For more information on ANA2017 conference and to register go to the website at [www.nuclearaustralia.org.au/ana2017](http://www.nuclearaustralia.org.au/ana2017). If you need further information please contact ANA at [ana@nuclearaustralia.org.au](mailto:ana@nuclearaustralia.org.au).

All speakers are invited. Posters are invited on topics relevant to the theme of the conference. AINSE travel support is available for students from AINSE member universities.

### **Keynote Session**

#### *Nuclear Power Industry in South Korea and United Arab Emirates (UAE)*

Four speakers from South Korea will discuss South Korea's successful nuclear power industry and the APR-1400 reactors operating in South Korea and nearing completion in the United Arab Emirates

### **Other Presentations include**

- *Australia's Participation in Gen IV International Forum (GIF)*  
Lyndon Edwards (ANSTO)
- *United Kingdom Nuclear Developments*  
Robert Godfrey (EDF)
- *Uranium Mining in Australia*  
Julian Tapp (Vimy Resources)
- *ANSTO Nuclear Medicine*  
Jayne Senior (ANM, ANSTO)
- *Carbon Ion Beam Therapy*  
Dale Prokopovich (ANSTO)
- *Levelling the Playing Field for Nuclear*  
Ron Cameron
- *Gaining Social Licence for Nuclear*  
Peta Ashworth (UQ)
- *Options for Nuclear Power for Australia*  
Robert Parker (ANA)
