# AusYGN

Australian Young Generation in Nuclear

## AusYGN Vision

Provide a platform for young nuclear professionals to collaborate and develop

## AusYGN Mission

Australian Young Generation in Nuclear is committed to ensuring all Australians continue to gain the maximum benefit from nuclear science and technology tomorrow, by engaging and supporting young Australians today.

## AusYGN Objectives

- A platform for young nuclear professionals to collaborate and develop
- Be a voice for young professionals in nuclear
- Encourage young Australians to take up a career in nuclear
- Promote intergenerational knowledge transfer
- Promote the peaceful uses and benefits of nuclear science and technology
- A network of young Australians interested in Nuclear science and technology
- Create professional development opportunities

# AusYGN
